Experience

Inc. Associate Product Manager Intern | American Express

Summer 2019
Excited to be part of the inaugural APM intern class at American Express next summer!

Software Engineering Intern | Yelp

Fall 2018
Wrote product spec + implemented a new interface for reactivating accounts in the Yelp Wifi product.

Software Engineering Intern | Facebook

Summer 2018
Scoped, designed and implemented two projects for Facebook's internal recruiting platform. Both are now used for all onsite recruiting loops at Facebook.

Led cross-functional meetings in **product scoping and design** with recruiters, coordinators, designers and a second engineering team. Drafted supporting one-pagers and wiki pages.

Software Engineering Intern | Sabre

Summer 2017
Implemented frontend changes on the Commercial Analytics product, a data visualization tool for airline industry analysts. Learned D3.js.

Other Stuff I Do

Executive Director | BigRed//Hacks

2016 - 2018
Led 20 student organizers across 5 teams (Sponsorship, Logistics, Finance, Web Development, Design) to run Cornell University's flagship hackathon in 2018.

Previously, as Sponsorship Director:
Drove sponsorship revenue from **40k** to **85k** over fiscal year 2017.
Negotiated contracts with over 25 corporate sponsors.

Analyst | Cornell Strategic Consulting

2017 - Present
Learning how to do industry and competition research, with a major focus on growth strategy for early stage startups.

Ambassador | Cornell University College of Engineering

2017 - Present
I currently lead tours and information sessions for potential new students and their parents as an official student ambassador of the College of Engineering. Been getting pretty good at walking and talking backwards!
